TOXIN INJECTIONS

SWISS TECHNOLOGY

Swiss precision meets Botulinum Toxin

Less pain and discomfort:
87% of patients find
Juvapen injections less
painful than manual
injections.*

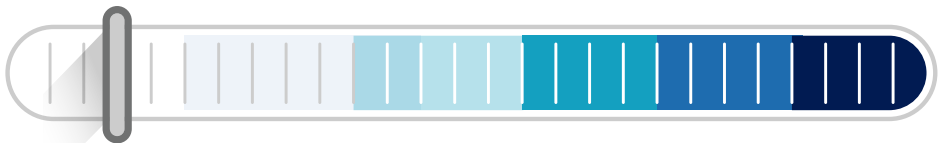

Improved results made
possible by advanced
techniques: retrograde
injections, microtoxin.

No more touchups.
Minimized side effects
such as bruising or
swelling.

Predictable and safe: no risk
of overdosage, letting you
focus on your technique.

Pain Scale Level *

Actual size

45 g

Perfect repeatability

Even in micro doses as low as 0.005 ml.

Swiss accuracy & precision

Avoid product waste with up to 20% toxin savings compared to manual injections.

Fully customizable and easy to use

No training necessary. Easily switch from one toxin brand or dilution to another.

Versatile

Designed for all toxin applications: therapeutic and aesthetic.

"Perfect comfort, and for my patients reduced pain. There are only benefits."

Pr. Ducros, France

"I'm a huge fan of the Juvapen Expert. It has become an integral part of my daily practice. I'm amazed by the added benefits with regards to its precision in dosing and anatomy."

Dr. Ghanem, UK
